

RIVER CITY ARCS NET SCRIPT (SIMPLEX)

Good evening.

It is 8:00 p.m., Wednesday and time for the River City Amateur Radio Communications Society SIMPLEX Net. This net is for the members of River City ARCS and any other amateur operator who would like to participate. (DROP)

This is (name) (call) your net control operator for tonight's net. Tonight's Net will be SIMPLEX on 145.250. This is the output frequency for the N6NA repeater.

This will be a controlled net. Regular members are asked to standby. Please do not transmit unless requested to do so by the net control operator. If an emergency should arise, and you need the repeater, please contact the net control by saying break-break. A double break signifies emergency traffic. The net will standby for you until the emergency is terminated or the traffic is moved to another frequency. (DROP)

The net will call members first followed by others who would like to check in. Members will be called in groups by the first letter in the suffix of their call sign. This is the first letter following the number in your call sign. (DROP)

Members are asked to respond with their full call sign using the recognized phonetic alphabet. I would also like each member to indicate the location from where they are operating. I will recognize each group before continuing. If I do not acknowledge a station that you were able to copy, please say "relay" and I will allow you to relay in the station. I will be asking for "relay stations" prior to moving to the next group. We will start with:
