PRESIDENTS MESSAGE

The presidents message has not been received by press time.

EDITORS MESSAGE

Well another field day is over, we should have results at the meeting. The weather while warm was not unbearably hot and there was some wind which helped. The potluck went well and I don't think any one went hungry.

This year we used a new location, the VFW in Fair Oaks where we had a picnic shelter which gave us a nice shady area then at night the shelter lights were turned on so there was plenty of light, no struggling with desk lights, folding led lights and the like.

At our July 2 meeting program, Mike Meighan KD6ILC will present an introduction to the Sacramento County Sheriff's Amateur Radio Program (SacSHARP). SHARP members have volunteered for over 125,000 hours of dedicated service helping county citizens and neighboring communities.

The Sheriff's Amateur Radio Program is comprised of volunteer amateur radio operators licensed by the Federal Communication Commission (FCC). The members of the Sheriff's Amateur Radio Program have the responsibility of assisting the Sacramento County Emergency Operations Center with any emergency requiring auxiliary communications.

The Sheriff's Amateur Radio Program also provides communication in assisting Search and Rescue, locating "at risk" missing persons, and crime prevention. SHARP may also be used to help deter juvenile truancy, prevention of graffiti, and public nuisance issues such as illegal dumping. Volunteering as the "eyes and ears" for the county, SHARP has helped in the apprehension of criminals.

For 2019 all membership meetings will be held on the 1st Tuesday of each month.

Board meetings are on the fourth Tuesday of each month.

Club Meeting	July 2
Independence Day	July 4
Board Meeting	July 23
Club Meeting	Aug 6
Board Meeting	Aug 27
Labor Day	Sep 2

Volunteer Exam Schedule

If you or someone you wants to take a class or a test .
The ARRL has this page Licensing, Education & training
<http://www.arrl.org/licensing-education-training>

This has a location by zip code which includes the above training in the schedule for technician and general.

It has a find a class and take an exam search by zip code.

ELMER

The club has an Elmer program where new hams can get help from older hams. If you need help with something contact a board member. If you would like to help others let a board member know and what your area of expertise is. It doesn't have to be complex electronics, it could as simple as labor to help put up a mast. By volunteering you will help others and maybe make a new friend.
